

Farida Tatardar

Short Biography:

Assoc. Prof. Farida Tatardar

Head of Physics and Electronics Department

Farida Tatardar graduated from Physics, Baki State University, Azerbaijan in 2006. She received the M.Sc. degrees in Physics of biological systems from Baki State University, Azerbaijan in 2008. She received her Ph.D. degree in electronics (physics) from the Institute of Physics, Ministry of Science and Education in 2014. She was assigned to the position of Assoc. Prof. at Institute of Physics, Ministry of Science and Education in 2017. Her research interests and subjects are composites based on polymers, fiber composites, nano and micro hybrid composites, piezo sensors, biosensors, energy harvesting systems, nanoelectronics and condensed matters. Farida Tatardar was a participant in two international grant projects and a project manager of one local grant.
